Subject: Delta Levee Maintenance Subventions Program Applications for FY 2024-2025

Dear Ms. Lobato:

Bradford Reclamation District 2059 (District) is submitting the Department of Water Resources Subventions Program Application for FY 2024/2025. The District has participated in the Subvention Program for many years and will continue to do so. The operations and maintenance reimbursement and special projects programs are essential for the District to provide the necessary flood protection for the home and property owners on Bradford Island.

The District looks forward to many more years working with the Department of Water Resources and the Department of Fish and Wildlife on this critical program.

If you have any questions, please do not hesitate to call me at 916-204-6869, Office Manager Angelia Tant at 925-209-5480 or President Robert Davies at 925-766-5074.

Sincerely,

Blake Johnson, PE, District Engineer for RD 2059

Work Agreement

Dear Ms. Tant,

Enclosed for your records is a copy of the Fiscal Year 2024-25 work agreement executed by the Central Valley Flood Protection Board for Reclamation District 2059 in connection with the Delta Levees Maintenance Subventions Program.

The Department of Water Resources will strive to process claims under this work agreement in a timely manner. However, the State's cash flow through bond sales may impact the availability of funds.

If you have any questions, please contact me at (916) 820-7847, or Sandra Maxwell, Manager of Delta Levees Maintenance Subventions Program, at (916) 820-8129.

Sincerely,

A handwritten signature in cursive script, appearing to read "Andrea Lobato".

Ms. Andrea Lobato, P.E., Manager
Delta Levees Program

Enclosure

**Delta Levee Maintenance Subventions Program
WORK AGREEMENT
Fiscal Year 2024-2025**

25th

June 2025

This Agreement is entered into as of the _____ day of _____, by and between **The Central Valley Flood Protection Board** of the State of California, hereinafter referred to as the "Board" and **Reclamation District No. 2059**, a political subdivision of the State of California, hereinafter referred to as "Local Agency."

WHEREAS, Part 9, commencing with Section 12980 of Division 6 of the California Water Code establishes a program for State financial assistance to local agencies responsible for maintenance of nonproject and certain project levees in the Sacramento-San Joaquin Delta; and

WHEREAS, The Central Valley Flood Protection Board approved the Delta Levee Maintenance Subventions Program 2016 Guidelines, dated August 26, 2016; and

WHEREAS, Part 9 requires local agencies to enter into an agreement with the Board to perform maintenance and improvement work as approved by the Board in accordance with administrative provisions and criteria adopted by the Board; and

WHEREAS, the Local Agency has submitted and the Board has approved levee maintenance and improvement plans in accordance with those provisions and criteria; and

WHEREAS, on November 24, 1997, as required by California Water Code Sections 12307 and 78543, the Board, the Department of Water Resources, hereinafter referred to as "DWR" or "Department," the Department of Fish and Game, now known as the California Department of Fish and Wildlife (CDFW), and the Resources Agency executed Amendment No. 1 to the Memorandum of Understanding, requiring projects or plans to be consistent with a net long-term habitat improvement program in the delta; and

WHEREAS, in November, 1999, CDFW issued the "Fish and Wildlife Enhancement Guidance Document" to ensure net long-term habitat improvement; and

WHEREAS California Water Code Section 12987 provides that CDFW ensures expenditures must be consistent with a net long-term habitat improvement program and have a net benefit for aquatic species in the Delta; and

WHEREAS, the Local Agency, DWR, and CDFW agree that the Local Agency has completed or is in the process of completing all of the requirements of California Water Code Sections 12987 and 79050 in its previous agreements with the Board.

Reclamation District No. 2059

Fiscal Year 2024-2025

NOW, THEREFORE, IT IS HEREBY AGREED THAT:

1. This Agreement covers the performance, inspection, reimbursement, and cost sharing of maintenance and improvement work performed on nonproject and eligible project levees by the Local Agency from July 1, 2024 to June 30, 2025.
2. The Local Agency shall accomplish the annual routine maintenance and rehabilitation work specified in the application prior to June 30, 2025. Local Agency shall be responsible for providing a registered engineer for appropriate direction and supervision of work described in the Local Agency's application to ensure that the work complies with accepted engineering and construction practices. Increased oversight by the Local Agency's engineer is expected with regard to any levee rehabilitation work.
3. No employee, officer, employer, or agent of the Local Agency shall participate in the selection, award, or administration of a contract for which reimbursement will be sought if a conflict of interest, real or apparent, would be involved. The Local Agency shall comply with all applicable laws on conflict of interest including, but not limited to, Public Contract Code (PCC) sections 10335.5 et seq., PCC sections 10365.5 et seq., PCC sections 10410 et seq., and Government Code sections 1090 et seq. and 81000 et seq.
4. On March 4, 2022, the Governor issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. The EO may be found at: <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under State law. The EO directs DWR to terminate funding agreements with, and to refrain from entering any new agreements with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine that the Funding Recipient is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this Agreement. The State shall provide the Funding Recipient advance written notice of such termination, allowing the Funding Recipient at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.
5. The Local Agency shall be responsible for environmental compliance that may be necessary for the maintenance and improvement work covered by this Agreement including, but not limited to, compliance with the California Environmental Quality Act, the California Endangered Species Act, and obtaining a Streambed Alteration Agreement (Fish and Game Code Section 1600 et seq.). The Local Agency agrees to comply with all applicable State, federal, and local laws including, but not limited to, any environmental protection and habitat improvement required pursuant to California Water Code Section 12987. Prior to any payments to the Local Agency, pursuant to this Agreement, the Local Agency shall submit to DWR and CDFW, an acceptable habitat improvement program component which includes any mitigation and enhancement

Reclamation District No. 2059

Fiscal Year 2024-2025

required by CDFW, which is consistent with a net long-term habitat improvement program. If a net long-term habitat improvement component is not agreed upon by the parties hereto and CDFW, then all payments made pursuant to this Agreement shall be subject to reimbursement by the Local Agency.

6. Work that is subject to the California Environmental Quality Act (CEQA) shall not proceed under this Agreement until documents that satisfy the CEQA process are received by DWR and DWR has completed its CEQA compliance review. Work that is subject to a CEQA document shall not proceed until and unless concurred with by DWR. Such concurrence is fully discretionary and shall constitute a condition precedent to any such work for which it is required. Once CEQA documentation has been completed, DWR will consider the environmental documents and decide whether to continue to fund the project or to require changes, alterations or other mitigation.

7. When reference is made herein to criteria or administrative procedures adopted by the Board, it is intended to include all addenda and supplements to said criteria or procedures.

8. Upon completion of the work agreed to be funded, the Local Agency shall submit a final claim completion report and notify DWR and CDFW for a joint inspection of the work. The Local Agency shall cooperate in the conduct of all inspections, including inspections by DWR, pursuant to California Water Code Section 12989, to monitor and ascertain compliance with and progress toward meeting the standards in the State's Flood Hazard Mitigation Plan for the Sacramento-San Joaquin Delta (DWR Office of Emergency Services, dated September 15, 1983), as updated or amended. To be eligible for reimbursement, the work shall be completed in the fiscal year for which application was made and approved.

9. In accordance with California Water Code § 9140, if Local Agency is responsible for the operation and maintenance of a project levee, or if Local Agency operates and maintains a nonproject levee that also benefits land within the boundaries of the area benefited by the project levee, Local Agency shall prepare and submit to DWR, on or before September 30th of each year, a report of information for inclusion in periodic flood management reports prepared by DWR relating to the project levee. The information shall include all of the following:

- a. Information known to the Local Agency that is relevant to the condition of the project levee.
- b. Information identifying known conditions that might impair or compromise the level of flood protection provided by the project levee.
- c. A summary of the maintenance performed by the Local Agency during the previous fiscal year.
- d. A statement of work and estimated cost for operation and maintenance of the project levee for the current fiscal year, as approved by the Local Agency.

Reclamation District No. 2059

Fiscal Year 2024-2025

- e. Any other readily available information contained in the records of the Local Agency relevant to the condition or performance of the project levee, as determined by the Board or DWR.

10. In accordance with California Water Code § 9650, if Local Agency receives funding from the State to upgrade a project levee that protects an area in which more than 1,000 people reside, the Local Agency responsible for the project levee and any city or county, including charter cities or counties, protected by the project levee shall enter into an agreement to adopt a safety plan within two years. The safety plan shall be integrated into any other Local Agency emergency plan and shall be coordinated with the state emergency plan. The local entity responsible for the operation and maintenance of the project levee shall submit a copy of the safety plan to DWR and the Central Valley Flood Protection Board. No advances or reimbursements shall be made by the State for a levee covered by this paragraph until it receives the Agreement from all necessary entities. The safety plan shall include all of the following elements:

- a. A flood preparedness plan that includes storage of materials that can be used to reinforce or protect a levee when a risk of failure exists.
- b. A levee patrol plan for high water situations.
- c. A flood-fight plan for the period before the state or federal agencies assume control over the flood fight.
- d. An evacuation plan that includes a system for adequately warning the general public in the event of a levee failure, and a plan for the evacuation of every affected school, residential care facility for the elderly, and long-term health care facility.
- e. A floodwater removal plan.
- f. A requirement, to the extent reasonable, that either of the following applies to a new building in which the inhabitants are expected to be the essential service providers:
 - 1.) The building is located outside an area that may be flooded.
 - 2.) The building is designed to be operable shortly after the floodwater is removed.

11. The Local Agency, its Engineer, contractors, subcontractors, and their respective agents and employees required for performing any work shall act in an independent capacity and not as officers, employees, or agents of the State. The Local Agency is solely responsible for planning, design, construction, maintenance, and operation of its levees. Any inspection, review or approval by the State is solely for the purpose of proper administration of State funding and shall not be deemed to relieve or restrict the Local Agency's responsibility for the safety and integrity of its levees. The Local Agency shall cooperate in the conduct of any State review or inspection.

12. The Local Agency shall be responsible for compliance with competitive bidding, prevailing wage provisions, contract administration laws, and all applicable labor laws including, but not limited to, Public Contract Code Section 20920, et seq., California Water Code Section 50907; and Labor Code Section 1720 et seq. and 1770 et seq.

Reclamation District No. 2059

Fiscal Year 2024-2025

Prior to awarding a contract for a public works project funded in whole or in part under Proposition 50, Proposition 84, or any other source of funding so requiring, the Local Agency shall adopt and enforce a labor compliance program pursuant to Labor Code Section 1771.5. The Local Agency must comply with California Labor Code Section 1773.3 (Duty to notify the California Department of Industrial Relations (DIR) when awarding a contract for a public works project. Construction work performed by Local Agency forces may be exempt from competitive bidding and shall be reimbursed pursuant to the equipment rates established by Caltrans (annual labor surcharge and equipment rental rates) and the Delta Levees Subventions Program. These equipment rental rates are available on the internet at <http://www.dot.ca.gov/hq/construc/>.

13. The Local Agency shall maintain records and books relating to the costs and quantities of labor and materials used, purchased, or contracted for in the performance of its levee maintenance and improvement work. The Local Agency shall maintain all receipts, accountings, books, invoices and records, pertaining to its levee work for a period of 10 years after the work has been performed or the expenses incurred. The Board and DWR shall have full and free access at all reasonable times to these books and records with the right at any time during office hours to make copies thereof. The Board, DWR, and the California State Controller's Office shall have the right to conduct audits, from time to time, of the Local Agency's expenditures for levee maintenance and improvement, the purpose of such audits being to assure that subvention funds are being properly used, that payments are not being made under other assistance programs for the same work, and that the Local Agency is seeking the most reasonable terms in its use of State funds. The Local Agency shall cooperate fully in any such audit.

14. The Local Agency shall be eligible for reimbursement for work satisfactorily completed in accordance with the following:

- a. Rural Levees – an area that is not urban.
 - 1.) No costs shall be reimbursed until the local agency has spent an average of \$1,000 per levee mile for all of its rural nonproject and eligible project levees;
 - 2.) The local agency shall be reimbursed up to 75 percent of eligible costs incurred in excess of \$1,000 per levee mile for all of its nonproject and eligible project levees.
- b. Urban Levees – an area in which 10 percent or more of the land area within the project area is used for residential use.
 - 1.) No costs shall be reimbursed until the local agency has spent an average of \$2,500 per levee mile for all of its nonproject and eligible project levees;
 - 2.) The local agency shall be reimbursed up to 75 percent of eligible costs incurred in excess of \$2,500 per levee mile for all of its nonproject and eligible project levees.

Reclamation District No. 2059

Fiscal Year 2024-2025

- c. If, in any year, the total eligible costs incurred exceed the State funds available, the Board shall apportion the funds among those levees or levee segments identified by DWR as being most critical and beneficial, considering the needs of flood control, water quality, recreation, navigation, habitat improvements, and fish and wildlife.
 - d. The Local Agency acknowledges that pursuant to California Water Code Section 12986, DWR shall require the Local Agency to provide information to DWR that may include, but not be limited to, a detailed engineer's report prepared pursuant to subdivision (b) of Section 4 of Article XIID of the California Constitution, audited financial statement, or an assessment commissioner's report.
 - e. The Local Agency acknowledges that the information or study shall be the basis for DWR's determination of the maximum allowable reimbursement. The Local Agency agrees to return to DWR any reimbursements paid to the Local Agency that are in excess of the maximum allowable reimbursement, based on an updated study of the agency's ability to pay.
 - f. Local Agency shall apply for federal disaster assistance whenever eligible.
15. State expenditures under this Agreement shall not exceed **\$1,680,450** subject to the availability of funds. The Local Agency estimated reimbursement approved by the Board on June 28, 2024 is **\$255,450**. The maximum approved advance amount, limited to 75% of the approved estimated reimbursement is **\$191,588**. The Board may increase the estimated reimbursement and advance amounts if information that warrants an increase becomes available.
16. Advanced payments or progress payments may only be made to Local Agency after DWR and CDFW determine the following approval requirements have been met by the Local Agency:
- An AB 360 program *Advance Payment Information Form* is approved in writing by CDFW and DWR.
 - A joint CDFW and DWR inspection is completed, as needed, and CDFW has evaluated the extent of the potential impacts associated with the funded project activity.
 - Documentation is submitted to DWR confirming that eligible deductible expenditures exceed the \$1,000 per levee mile criteria.
 - A schedule and appropriate bidding and contract documentation are submitted to DWR for projects requesting advanced funding.
17. To comply with the net long-term habitat improvement program and to have a net

Reclamation District No. 2059

Fiscal Year 2024-2025

benefit to aquatic species as required by California Water Code Sections 12987 and 79050, in the event levee maintenance or improvement activities result in a net long-term loss of riparian, fisheries or wildlife habitat, the District agrees to fully mitigate this loss at a time, site and manner subject to CDFW approval.

18. Each Local Agency must comply with the requirements of the Delta Stewardship Council (DSC) regarding Covered Actions. If the Local Agency determines any activities are a Covered Action under Water Code Section 85057.5, the activities are required to be consistent with the regulatory policies of the Delta Plan. The Local Agency must certify consistency with the Delta Plan by submitting a Certification of Consistency to the DSC prior to performing covered activities. Information regarding Covered Actions and Certification of Consistency may be found on the DSC's website at the following locations:

1. Covered Actions: <https://coveredactions.deltacouncil.ca.gov>
2. Certification of Consistency:
http://coveredactions.deltacouncil.ca.gov/certification_process.aspx

19. If DWR finds that work under this Agreement has not been satisfactorily performed, or where advances exceed actual reimbursable costs, the Local Agency shall promptly remit to DWR all amounts advanced in excess of reimbursable costs (California Water Code Section 12987). In the event that Local Agency has an outstanding obligation with DWR pursuant to this paragraph, DWR may seek such reimbursement from the Local Agency by any appropriate means including but not limited to, collecting any amount owing to the Local Agency from DWR or the Board under the Delta Flood Protection Program.

20. The Local Agency shall indemnify and hold and save the State of California, the Board, DWR, and all other agencies or departments of the State and their employees, free from any and all liability for any claims and damages (including inverse condemnation) that may arise out of this Agreement, including but not limited to, those arising from the planning, design, construction, maintenance and operation of levee rehabilitation measures for this Project and any breach of the terms of this Agreement. Local Agency shall require its contractors to name the State, its officers, agents and employees as additional insured's on their liability insurance for activities undertaken pursuant to this Agreement. Local Agency shall also require its contractors to have applicable performance and payment bonding in place before commencing work. The Local Agency's indemnity and related obligations under this Agreement also extend to any similar Department indemnity and related obligations with the U.S. Army Corps of Engineers for emergency assistance, response and rehabilitation of Local Agency's facilities and the Local Agency hereby expressly assumes those obligations.

21. No waiver of any breach of this Agreement shall be held to be a waiver of any other or subsequent breach, and no excuse of any condition or covenant shall be held to be an excuse of any other condition or covenant, or the same condition or covenant at a subsequent time.

Reclamation District No. 2059

Fiscal Year 2024-2025

22. This Agreement may be amended in writing by the mutual consent of the parties hereto.

23. The AB 360 Program Funding Claim Information Form with information detailing areas of work on the levees shall be submitted prior to any consideration for reimbursement.

24. All final claims associated with this Agreement shall be submitted by November 1, 2025. DWR requires that all habitat and mitigation requirements under this Agreement shall be completed to the satisfaction of CDFW no later than three years from the date of this Agreement absent a waiver of this requirement by DWR in writing. In the absence of this waiver, failure to complete habitat and mitigation requirements within the three-year period will result in forfeiture of reimbursement under this Agreement and future agreements within the Delta Levees Program, until mitigation and habitat requirements are complete. It is the responsibility of the Local Agency to request this waiver of DWR.

Resolution 2023-06

Page 1 of 2

Resolution to participate in the 2024-2025 Levee Subventions Program

WHEREAS, the Reclamation Board of the State of California, hereinafter referred to as the "Board" and Reclamation District 2059 (Bradford Island), hereinafter referred to as the "local agency" wish to enter into an agreement to establish a program of financial assistance to the local agency under California Water Code Part 9 Sections 1280 to 12995, commencing maintenance on non-project and certain project levees in the Sacramento-San Joaquin Delta; and

WHEREAS, the statute requires the local agency to enter into an agreement with the Central Valley Flood Protection Board to perform maintenance and improvement work as approved by the Board in accordance with administrative criteria adopted by the Board; and

WHEREAS, the local agency has submitted and the Board has approved levee maintenance and improvement plans in accordance with those provisions and criteria.

THEREFORE, by a unanimous vote of the Board of Trustees of Reclamation District 2059 (Bradford Island) agrees to sign the Delta Levee Maintenance Subventions Program Work Agreement for the **Fiscal Year 2024-2025** for Improvement Projects on (Bradford

Contra Costa County, State of California

March 22, 2024

2024-2025 Annual Levee Subventions Program

SECTION I – GENERAL SUBVENTIONS APPLICATION

1. GENERAL

- A. The Board of Trustees of Reclamation District No. 2059 (District) has authorized the filing of an Application for participation in the State of California Department of Water Resources' (DWR) Subventions Program for fiscal year 2024-2025.
- B. Upon approval, the Board of Trustees of Reclamation District No. 2059 will execute, sign, and enter into an Agreement with DWR for financial assistance to perform maintenance and rehabilitation work in accordance with the provisions and criteria set forth in the Agreement.
- C. The District will provide the DWR with a certified resolution authorizing the execution and signature of the above Agreement.
- D. The District will submit to DWR a method of assessment, assessed value, local agency tax rate for flood control, bonded indebtedness for flood control, and a summary of unpaid warrants for flood control work and/or the most recent audited financial report including the above-mentioned items.

2. DISTRICT INFORMATION

- A. The non-project levee system surrounding Bradford Island is under the jurisdiction of Reclamation District No. 2059. The District will continue to perform levee maintenance and rehabilitation work in accordance with established standards, provisions, and criteria.
- B. RD 2059 is in the County of Contra Costa.
- C. Bradford Island is surrounded by the San Joaquin River, the False River, and Fisherman's Cut.
- D.

Total Acreage Protected by Levees:	2,200 Acres
Non-Project Levee Miles:	7.4 Miles
Project Levee Miles:	0.0 Miles
- E. The primary land use of the area protected by the levee system is agricultural.
- F. Approximately 40 people inhabit Reclamation District No. 2059. Anywhere from 10 to 15 people live on the island full time.

- G. The District levies a special assessment each year to fund levee maintenance, rehabilitation, and environmental requirements related to those lands or rights-of-way within the District's jurisdiction. This special assessment is a direct levy allocated amongst the various property owners. The District is currently looking at updating this assessment within the next year.

3. WORK DESCRIPTION

A. Project Description:

- 1. An 8.5" x 11" base map has been developed for the District using Aerial photography with a scale of 1" = 2000' and levee stationing.
- 2. The District also performs rehabilitation work under Special Projectwork agreements with the DWR.
- 3. Maintenance Work
 - a. Description of Work – Refer to *Section I, Subsection 6, Annual Routine Levee Maintenance*.
 - b. Budget Cost of Annual Routine Levee Maintenance Work: \$148,000 – Refer to *item 7A. Annual Routine Levee Maintenance*.
- 4. Rehabilitation Work
 - a. Description of Work – Refer to *Section I, Subsection 6, Levee Rehabilitation Plans*
 - b. Drawings – No specific plans or project sites have been developed or authorized by the District at this time.
 - c. Budget Cost of Proposed Work (Item B. Levee Rehabilitation): \$1,900,000 – Refer to *Item 7B*.
 - d. Environmental and Mitigation: \$200,000 – Refer to *Item 7C*.
 - e. Total Application Amount: \$2,248,000.

4. LONG RANGE PLANS

- A. The District's long-range rehabilitation plans consist of maintaining compliance with the Hazard Mitigation Plan (HMP) required by FEMA for future disaster assistance.
- B. The District's long range design standards and plans for the levee system under their jurisdiction:

Crown Width	=	20 Feet
Crown Elevation	=	9.0 Feet (U.S.G.S. Datum)
Base Flood Elevation	=	6.4 Feet (U.S.G.S. Datum)
Waterside Slope	=	1.5 Horiz. To 1 Vert (1.5:1)
Landside Slope	=	5 Horiz. To 1 Vert. (4:1)
- C. The District plans to continue maintenance of its levee system to comply with HMP and

State standards and requirements for maintenance and rehabilitation. The District will also conduct levee inspections and engineering surveys to keep abreast of subsidence, erosion, slip outs, and seepage along the levee section. In addition, periodic waterside levee slope inspections will be conducted at low tides to monitor existing conditions and riprap protection. Necessary repairs will be scheduled accordingly.

- D. Environmental long-range plans and goals consist of continued compliance with the requirements set forth under AB 360.
- E. The District has determined that the long-range levee maintenance and rehabilitation work and plans fall within the classes of projects which have been declared categorically exempt from the provisions of CEQA.

5. ANNUAL ROUTINE LEVEE MAINTENANCE

A. General

- 1. The annual routine and regular maintenance of levees under the District's jurisdiction will consist of continuing with regularly planned and scheduled maintenance activities.
- 2. The District's planned and budgeted activities and work items may require adjustment, elimination, increase, or decrease of certain line items in response to any or all of the following circumstances:
 - Unforeseen levee site conditions.
 - Changes in State and Federal standards and regulations.
 - Changes in levee maintenance and rehabilitation requirements, and/or
 - Environmental Programs.
 - District budget/cash flow constraints.
- 3. Maintenance activities are performed district wide on an as needed basis and in accordance with the District's "Agreement for Annual Routine Levee Maintenance" as required by DFG Code Section 1601. The District will notify the Subventions Program Staff in advance of activities that will impact overall habitat values.

B. Maintenance Activities

- 1. Levee Inspection – Routine and joint levee inspections to check on maintenance activities, discover any changes in levee conditions, and report conditions that need repairs or further engineering investigations.
- 2. Rodent Control – Extermination of burrowing rodents and filling of burrows with compacted material, as needed. No filling of burrows in burrowing owl areas, as designated by DFG, shall take place during the period of March 15 through August 15, with the exception of the filling of beaver and muskrat dens near the waterline. Application of County permitted and restricted bait materials or any other approved method of rodent eradication, in accordance with labeled instructions and regulations.
- 3. Shaping Levee Crown to Drain Freely – As needed the levee crown will be maintained to have a uniform shape, which will drain water equally throughout the surface without allowing pocketing or excess runoff locations.

Repair and Grade Patrol/Access Roads and Ramps – Repair, grade, and shape levee crown, as needed. Levee patrol road areas may require placement of road

surfacing for wet weather accessibility. Work will be performed in a manner that will keep dust to a minimum and prevent siltation into the adjacent waterways.

4. Repair Minor Slipouts, Erosion, or Subsidence of the Levee Section – Repair of active levee slip outs, erosion, rodent burrows, subsidence, or other site-specific conditions that threaten the safety and stability of the levee, as determined by engineering investigations. Levee cavities that require considerable slope rebuilding will be backfilled with clean earthen materials and compacted. All repair sites will be covered with clean quarry stone riprap or other suitable revetment materials. All site repairs that are contracted out and exceed the lengths set forth in the District's DFG Annual Routine Maintenance Permit Agreement will be applied for under a separate "Site Specific" DFG 1601 Agreement.
5. Removal of Drift Deposits and Debris from Levee and Berm – Removal of flood deposited woody or herbaceous vegetation and associated debris to alleviate significantly reduced channel capacities, threatened levee safety, and liability to the District and the public.
6. Seepage/Boil Control – Repair of active seeps where necessary to maintain levee safety and structural integrity.
7. Cleaning Drains and Toe Ditches Adjacent to the Landside Levee Toe – Cleaning of toe ditches, as needed, when they become ineffective and/or clogged, preventing proper levee seepage and drainage and impairing levee safety.
8. Vegetation Control – Continuation of annual weed/vegetation/Arundo donax (bamboo) control on the levee crown and slopes in accordance with County, State, and federal requirements. Controlling vegetation on the levee slopes shall include applying permitted herbicides, and cutting or trimming vegetative growth such as weeds, brush, berry vines, and trees to the extent necessary to inspect and maintain the levee.
9. Repairing or Restoring Waterside Slope Protection – Repair/restoration of existing waterside slope protection is an ongoing project along levee slopes that are subjected to considerable boat activity, wind and wave wash, and degradation by rodents. Repairs are determined by routine levee inspections and detailed engineering investigations. The repair/restoration may require slope rebuilding with clean embankment materials, compacted in place and covered with clean quarry stone riprap or other suitable revetment materials to maintain levee stability.
10. Flood Emergency Planning and Preparation – Activities shall be performed as needed.
11. Removing or Modifying Encroachments – Encroachments, which do not meet State standards, endanger levee safety, or interfere with levee maintenance and road access, will be removed or modified. Existing encroachments (e.g., discharge pipes, siphons, slide/flap/tide gates, weirs, drop structures, or other existing water control devices) are scheduled to be cleaned, repaired, raised, modified, and/or replaced as needed for operation and levee safety.
12. Levee Profiles, Cross Sections, and Other Surveys – Engineering and surveying services will be performed as needed.

13. Other levee and underwater surveys (scour investigations).
14. Engineering Services and Bradford Island Subventions Program Management. Provide engineering services and management as needed including DWR mandated labor compliance program.
15. Miscellaneous items – gates, guard rails and traffic control.

6. LEVEE REHABILITATION PLANS

- A. Though no levee rehabilitation work has not been formally presented, the District has several locations that could be rehabilitated if funding were available. The District has two low spots on the north side of the island that need to be raised on average three feet. Due to high water in the San Joaquin River, additional rock slope protection is needed along the western and southern sides of the island.
- B. Site Specific engineering plans and work will be coordinated with the appropriate agencies, including the Bradford Island Subventions Program Staff, following authorization for the work by the District and prior to commencement of the work.
- C. All engineering plans will be prepared and signed by a Civil Engineer licensed by the California Board for Professional Engineers, Land Surveyors, and Geologists.
- D. The District will comply with the Department of Industrial Relations (DIR) for public works projects. All contractors awarded public works contracts from the District shall be registered with DIR.

7. Maintenance and Rehabilitation Budget Bradford Island

Reclamation District 2059
Subventions Application Budget Fiscal Year 2024-2025

A. ANNUAL ROUTINE LEVEE MAINTENANCE			
1	Routine Levee Maintenance Inspection	\$20,000	14%
2	Rodent Control & Filling Borrows	\$3,000	2%
3	Repair and Grading of Levee Patrol Roads, Acc Roads & Ramps	\$2,000	1%
4	Repair of Minor Slipouts and Erosion Repairs	\$10,000	7%
5	Removing Drift Deposits/Debris from Levee and Berm	\$2,000	1%
6	Control of Seepage/Boils	\$60,000	41%
7	Cleaning Drains & Toe Ditches Adjacent to Landside Levee Toe	\$0	0%
8	Vegetation Control	\$20,000	14%
9	Repairing /Restoring Rock Protection	\$10,000	7%
10	Planning for Flood Emergencies	\$5,000	3%
11	Removing or Modifying Encroachments	\$1,000	1%
12	Surveying Profile and Cross Section of Levee	\$0	0%
13	Other Levee & Underwater Surveys	\$0	0%
14	Engineering Services & Subventions, program management	\$15,000	10%
15	Misc. items - gates/guard rails, traffic control	\$0	0%
TOTAL ANNUAL ROUTINE LEVEE MAINTENANCE		\$148,000	100%
7.4 miles @ \$20,000/mile			
B. LEVEE REHABILITATION			
1	Provide 1.5' Freeboard (Ag.)	\$1,000,000	53%
2	Flattening Waterside Slopes to 2:1	\$25,000	1%
3	Widening of Levee Crown to 20'	\$0	0%
4	Reconstruction & Upgrading of All weather Patrol Rds	\$25,000	1%
5	Provide Turnouts, Access Roads & Ramps	\$150,000	8%
6	Relocation of Toe Ditches Resulting from levee rehabilitation	\$0	0%
7	Replacement of Rock Protection	\$500,000	26%
8	Seepage and or stability toe berms	\$200,000	11%
TOTAL LEVEE REHABILITATION WORK		\$1,900,000	100%
C. ENVIRONMENTAL AND MITIGATION			
1	DFW Permits, Sub. Prog. Services/Management/Engineering	\$125,000	63%
2	Mitigation & Agreements	\$50,000	25%
3	Levee Enhancement & Vegetation Management	\$25,000	13%
TOTAL ENVIRONMENTAL MITIGATION		\$200,000	100%
D. FEMA/Other			
1	FEMA Disaster Costs Submitted to DWR	\$0	0%
2	Disaster Costs Claimed for payment by SB 34	\$0	0%
TOTAL FEMA/Other		\$0	
Bradford Island, Reclamation District 2059			
APPLICATION TOTAL (SUM A+B+C+D)		\$2,248,000	

SECTION II ENVIRONMENTAL MITIGATION & ENHANCEMENT

1. WORK DESCRIPTIONS

A. Habitat Assessment

1. CEQA

- a. The District has determined that the routine maintenance work described in this application is categorically exempt under CEQA and from the requirements of preparing a Negative Declaration or an E.I.R., as said work falls under the Class I Categorical Exemption as defined in the CEQA Guidelines. The District plans to file "Notices of Exemption" with the Contra Costa County clerk for the routine maintenance work described herein.

2. Regulatory

- a. The District will apply for and obtain any permits deemed necessary for the work described in this application.
- b. Where applicable, the District will apply for and obtain a "Site Specific" Streambed Alteration Agreement through the Department of Fish and Wildlife in compliance with DFG Code Section 1601.
- c. Pursuant to DFG Code Section 1601, the District has signed the Routine Maintenance agreement.

2. NET HABITAT IMPROVEMENT MANDATES

- A. The District will comply with the Net Habitat Improvement Mandates required by AB360. Upon completion and acceptance of an updated Habitat Assessment, the District will evaluate whether it will implement any enhancement development projects. If habitat enhancement projects are required prior to completion of the Habitat Assessment, the District will request participation in the DWR & DFW sponsored programmatic "Habitat Improvement" projects.

3. MITIGATION PLANS

- A. The District's work activities for fiscal year 2024-2025 will be planned and carried out in a manner consistent with the signed DFW Agreement.

4. LONG RANGE MITIGATION PLANS

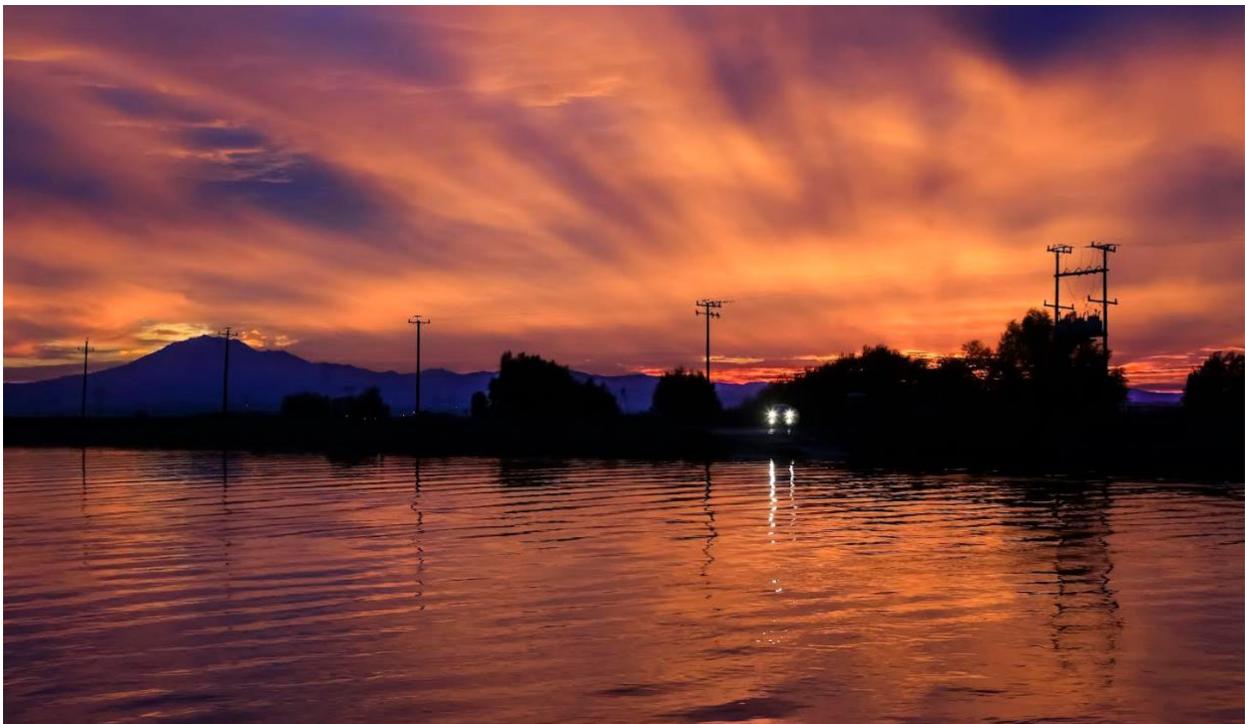

- A. Bradford Island has mitigated for all habitat impacts associated with levee works.

RE: INVOICE FOR VEGETATION CONTROL, BRADFORD ISLAND

Dear Angelia,

On September 12 and 13, 2024, Reclamation District 900 (RD 900) assisted Bradford Reclamation District 2059 (RD 2059) with Vegetation Control on Bradford Island. RD 900 mowed the levee slopes along the water and landside of Fisherman's Cut and the north and westside of the along the San Joaquin River. RD 900 staff spent four days on-site.

Below is a list of staff and equipment hours and rates used for vegetation control:

Name/Equipment	Position	Hrs	Rate	Total
Jason Garcia	Foreman	32	\$76.30	\$2,441.60
Dustin Miller	Operator	32	\$72.65	\$2,324.80
John Deere 6330 Tractor with side boom mower and rear mower	equipment	27	\$51.65	\$1,394.55
Ford F550 Water Truck	equipment	32	\$63.53	\$2,032.96
International Dump Truck (hauling tractor)	equipment	5	\$94.12	\$470.60
Trailer (hauling tractor)	equipment	5	\$6.40	\$32.00
				\$8,696.51

My time will be billed separately as the RD 2059 District Engineer.

Please remit payment of \$8,696.51 to the address listed on this letterhead.

If you have any questions, please feel free to contact me at 916-371-1483 office, 916-204-6869 cell, or bjohnson@rd900.gov.

Thank you,

Blake Johnson, PE
General Manager
Reclamation District 900

2024-2025 FISCAL YEAR
SUBVENTIONS ADMINISTRATION
BRADFORD RECLAMATION DIST. 2059

ANGELIA H. TANT
HOURS WORKED

RATE OF PAY \$43.81 PER HOUR

ANNUAL HRS. 197.2

District Manager/District Secretary's administrative time spent on the subventions claim:
Worked with District Engineer, Levee Superintendent and Board of Trustees on subventions projects through out the fiscal year of 2022-2023 fiscal year. Drafted Agendas with subject matters pertaining to subventions categories, taking notes and meeting minutes on the subvention's subject matters and projects. Administrative time spent putting together electronic files and paper files with documents relative to the subventions claim. Administration on preparing and processing the Work agreement, resolutions, letters and application portion of the district's claim. Attending meetings with the District Engineer, Levee Superintendent and contractors with regards to the subvention's projects. Data Entry of the weekly times sheets for levee superintendents' hours and equipment usage relative to the subventions claim. Attending OES Meetings regarding ongoing emergencies and emergency storms. Additional work due to FEMA declared Disaster. Accounting for encroachment permits and project monitoring. Compiling photos, saving an electronic copy in files, and labeling photos relative to the claim. Corresponding with the DWR Staff and DFW with regards to the Subventions claim. A/R entry and coding for subventions invoices in QuickBooks, A/P on invoices and administration to records payments at the Contra Costa County and mail out payments. Work on the final claim with the District Engineer and Compile all of the data to put the subventions claim together, take final claim to printers and have the books bounded,

Subventions Administration per week 2.65 hours x 48 weeks = 127.2 hours

Subventions Administration on Final Claim (working with Dist. Engineer) 40 hours

Subventions Administration on Final Claim (working with the Levee Superintendent) 30 hours

SUBTOTAL

\$8,639.33

AB360 Form

Outlining the Scope of Work Summarized
For Annual Inspection

Prepared by:

Blake Johnson, PE

**AB 360 Program
Subventions Funding Claim Information Form**

This form must accompany all Subvention Funding Claims for levee work under the AB 360 Program. This includes progress claims, final claims, and emergency work (as soon after work completion as possible). This form is intended to summarize information necessary to comply with AB 360 mitigation/enhancement requirements. Use of this form will expedite the field inspection and payment approval process. This form does not replace any other required AB 360 paperwork.

Claimant Information

Reclamation District Name/Number		Final Claim
		Progress Claim
Engineer/ Engineering Company		Fiscal Year

Work Description

Describe work performed during the fiscal year noted above. Identify work locations by levee station and for multiple work locations, include the range of stations. Check the boxes next to the location of the work (landside, waterside, or both) and months when the work was performed.

Annual Routine Maintenance

Road Work		Levee Stations													
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec		
Activity Description															

Erosion / Subsidence		Levee Stations													
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec		
Activity Description															

Drainage Control		Levee Stations

Vegetation Control		Levee Stations											
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Activity Description													

Miscellaneous		Levee Stations											
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Activity Description													

Levee Rehabilitation

HMP / PL 84-99		Levee Stations											
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Activity Description													

Emergency Work

Please reference FEMA disaster number if applicable.

Storm Repair		Levee Stations											
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Activity Description													

Other		Levee Stations											
Landside	Waterside	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Activity Description													

Mapping

Attach a map showing work locations and levee stations to the nearest 1,000 feet.

Project Impacts

Describe project impacts to vegetation. Include location, description, and pre- and post- project photographs of any vegetation removed. Where applicable, describe existing or proposed mitigation for these impacts.

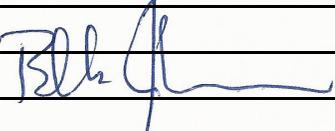

Net Habitat Improvement Requirement

To comply with the net long-term habitat improvement program and have a net benefit to aquatic species as required by Water Code Sections 12987 and 79050, the District agrees to participate in DWR and DFG sponsored programmatic habitat improvement projects.

Fish and Game Notifications

Notification under Section 1602 of the Fish and Game Code is required for all flood control work within the bed, channel, or bank, of any river, stream, or lake. Please list all 1602 agreements which were obtained for work completed subject to this claim. List all notifications by number.
