

BRADFORD RECLAMATION DISTRICT 2059

October 2026 UPDATE

MAINTAINING TODAY ★ PROTECTING TOMORROW ★ A STRONGER ISLAND TOGETHER

FUNDING STATUS

Most maintenance activities had been delayed due to funding. Now that the **Prop 218 funding will arrive in December**, maintenance can continue.

We cannot hire without the funding (we can hold an invoice for maybe 60 days).

VEGETATION CONTROL

The District removed vegetation from the levee slope to help identify erosion, animal burrows, and other issues.

Subventions eligible
(State reimbursable).

MUSCLE WALL PREPARATION

Brought in the California Conservation Corps (CCC) to assist with preparing the muscle wall.

Subventions eligible
(State reimbursable).

CALIFORNIA
CONSERVATION
CORPS

CCC ASSISTANCE

CCC helped with vegetation control at the pump station, access roads along district ditch.

Ditch maintenance is not covered by the State.

PUMP STATION

The District has one operating pump (large pump).

The smaller pump is inoperable.

Working with contractor as to the best way to repair/replace pump motor.

Pump station is not covered by the State.

DISTRICT DITCH MAINTENANCE

District is responsible for the main north/south ditch that runs the length of the island.

District is also responsible for the ditch that runs from the north/south ditch east to the pump station.

The ditch has vegetation, but it flows as long as none of the crossings are plugged.

Interim superintendent is checking on this (main issue is at the Crowe's property, this has been blocked before).

If funds are available, interim superintendent can rent an excavator and work on the ditch.

Ditch maintenance is not covered by the State.

MITIGATION SITE

Contractor still on-site but wrapping up for the winter.

Funded by the State.

LEVEE ROAD REHABILITATION

Finalizing drawings and contract for bid.

Rehabilitation to be done before the end of year.

Funding by FEMA/CalOES.

*Thank you for your continued support
in keeping our island safe and strong!*

Blake Johnson, PE
District Engineer
Bradford Reclamation District 2059
